June 2015

Summer is around the corner and it's time to explore the outdoors! At Camp Kindness Counts, children and families have been helping out in our local community gardens and parks. Thank you to everyone that came out to help baby trees grow, native animals thrive, and bringing the community together outdoors.

We are very excited to continue connecting with kindness this Summer! We invite you to share your ideas of how to make a difference in our beautiful outdoors on Facebook or on CampKindnessCounts.org.

Let's not forget to have fun in the sun and share kindness when you can!

Have a great summer!

Kind Connection Tips
"Our Planet Our Outdoors"

- Plant a food garden and share what you grow with others
- When you are outside, take a look around to see if there is any litter to be picked up to help keep our planet clean
- Plan a bicycle outing. Not only will it be kind for our planet by not using your car, but you can be kind to your body at the same time.

3 Ways to Contribute to Camp Kindness Counts

SUPPORT
- Volunteer your skills, expertise, or ideas to help us grow
- Attend a family kindness event

GIVE
- Make a 100% tax deductible contribution
- Corporate Giving/Volunteer program contribution

SHARE
- Inspire others by sharing your child's act of kindness, articles, or thoughts with us on our Website, Facebook, or Twitter!
